*Our family...  
caring for your family.*

**W**e are pleased to offer advice and guidance on selecting the appropriate coffin. This brochure illustrates the types and varieties of coffins and caskets we can supply. We start with our standard range of traditional coffins in oak or mahogany, go on to show a cardboard coffin and some of our wide range of wicker coffins and caskets. These are woven from a variety of natural resources such as Willow, Seagrass and Coconut Palm. There are two examples of the Natural Legacy range, made using 100% wool and finally some examples of the Colourful Coffins range are shown. These allow personalised graphics and images to be printed in environmentally friendly inks over the coffin. For those seeking a bespoke service, we will be pleased to discuss your requirements in detail. Wherever possible, our coffins and caskets are supplied from environmentally responsible sources.
